LAS CRUCES AND
MESILLA VALLEYWITH THE STUDENTS
AT A. & M. COLLEGEA Committee Appointed to
Draw up Constitution;
Girls in Athletics.

Agricultural College, N. M., Oct. 14.—Prof. Luther Foster, director of the experiment station, gave an interesting talk to the students in general assembly yesterday on "The Need of a Student to Take Part in Other College Activities Besides Studies."

The student body was called to order yesterday for the purpose of having a report from the committee on the advisability of a student government commission. Olaf Windsor made a report for the committee and described the work of the members and as to how many students should be on the commission. The question was put to further discussion and a motion was made to put the matter of drawing up a constitution in the hands of a committee appointed by the student body. There was little opposition to the new movement, possibly because few knew anything for or against the question.

The corps of government engineers who were in Las Cruces, El Paso and at the Elephant Butte damsite, visited here before the reception at Las Cruces.

All the girls of the college have elected either tennis or basketball as their physical culture, as they are required to take them. A great many are going into basketball, but the majority into tennis.

The sophomores elected San Bausman president; Coats Mitchell, vice president, and Miss Edna Anderson, secretary-treasurer, at their business meeting Thursday.

Fifteen new typewriters from agents in El Paso arrived to replace those destroyed in the recent fire. The commercial department has been using borrowed machines from El Paso till the new ones arrived. Four more will come the 19th inst.

The students in machine shop practice are turning out on the lathe another gasoline engine, a little different from the half-horsepower engine of last year. This one will be a two-cycle, upright engine, developing three horsepower.

Miss Maude Morrison and her mother have arrived and are occupying Rev. Mr. Frame's residence in College Row. Miss Morrison taught vocal and instrumental music here three years ago and will again take up those duties.

Coach Badcock went to El Paso today to meet his mother-in-law, who is coming from Chicago to spend the winter here.

Fernando Quintero, who has been for several months in charge of some work for landowners in north and central Mexico, is here on a vacation.

LAS CRUCES JURY
MAKES ITS REPORT

Recommends That Justices
Do Not Send So Many
Trivial Cases to It.

Las Cruces, N. M., Oct. 14.—The territorial grand jury in its report to the court, makes a protest against justices of the peace sending so many trivial cases to the grand jury, thereby incurring extra expense for the county when they could dispose of the cases, the same being within their jurisdiction.

The attention of the court was called to the transactions of avaricious real estate dealers who have subdivisions to the town situated on the mesa, and who use every effort to sell lots in such a way as to unsuperseding and innocent purchasers. These purchasers, when they find the kind of land they have bought, become prejudiced against the town and the valley, and the grand jury requests that the court use its influence to stop such actions.

The attention of the court was also called to the lack of good roads in the valley and the absolute necessity for a main thoroughfare through the county from Rincon to the Texas state line. Attention was also called to the bad condition of the present roads and the lack of a sufficient number of highways. The court was requested to do all in its power to hasten the building of the Camino real.

The special reports of committees appointed to examine the court offices and the conduct of such by the present incumbents, while not yet made public, are reported to state that the offices have been found to be in the best of condition, the books correctly kept and the duties of the various offices conscientiously discharged.

INDIANS WANT TO
DANCE AT THE FAIR

Endeavoring to Raise Funds
to Build Church at Las
Tortugas, N. M.

Las Cruces, N. M., Oct. 14.—The Pira and Piguas tribes of the Pueblo Indians of New Mexico are at present building a chapel in which to hold their religious services. The chapel is being constructed at the Indian town of Las Tortugas, about three miles south of Las Cruces. The tribes still lack about \$400 of the amount necessary to complete the edifice and the members are anxious to raise this amount as soon as possible.

With this end in view, the president of the five tribes of the Pueblo Indians, major Eugene Van Patten has written to the managers of the El Paso Fair association offering to take two dance teams from the tribes to the fair, where they would put on their regular Indian dances. The Pira tribe is the head of all the Pueblo Indians in New Mexico and the dances which are given are not only highly interesting, but also instructive.

"There's a Reason"

How to Destroy the
Dandruff Germ

By a Specialist.

That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is a well-known fact, but when we realize that it is also indirectly responsible for many of the worst cases of catarrh and consumption, we appreciate the importance of any agent that will destroy its power. We are, therefore, particularly pleased to give herewith the prescription which an eminent scientist and specialist states he has found, after repeated tests, to completely destroy the dandruff germ in from one to three applications. This prescription can be made up at home, or any chemist will put it up for you. 6 ozs. Bay Rum, 2 ozs. Lavona de Composee, 1/2 dr. Menthol Crystals. Mix thoroughly, and after standing half an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger tips. If you wish it perfumed, add half a teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. This preparation is not a dye, but is unequalled for promoting a growth of new hair, and for restoring gray hair to its original color.

Be sure to ask the druggist for all the enclosures in the Lavona de Composee package. One of them entitles you to a free trial of the dandruff germ for your hair tonic bottle, and you are also entitled to receive the free advice of an expert on the hair by simply writing to the address you will find enclosed in the carton.

CAUTION: Do not apply where hair is not desired, and be sure to avoid tonics containing poisonous wood alcohol.

A. E. Ryan & Co., the well-known local druggists, have had so many calls for this prescription that they have taken special steps to have it filled promptly for all who call.

CRUCES POSTOFFICE
BIDS ARE SOUGHT

Lease of From Five to Ten
Years to Be Secured on
a New Building.

Las Cruces, N. M., Oct. 14.—Postmaster A. M. Branigan has received a notice from the general postoffice department at Washington requesting him to advertise for bids for furnishing new quarters for the local postoffice. Proposals will be received up to December 1, 1910, for the furnishing of suitable quarters under a lease for from five to ten years. About 1500 square feet of floor space will be required and the necessary equipment will cost approximately \$2500. The proposals are to be handed in to the Las Cruces postmaster not later than November 25, 1910.

This change in the postoffice quarters is made necessary on account of the large increase in business transacted by this office. The present room is entirely too small for the proper and efficient handling of the great amount of mail matter which passes through the office and it has been found absolutely imperative that the office room be increased at least double.

**SURELY REGULATES YOUR KIDNEYS
AND ENDS ALL BLADDER TROUBLE.**

A few doses of Pape's Diuretic end the most severe Backache.

In all the world there is no man or woman who can afford to neglect the slightest kidney disorder for one single day.

Kidney diseases are the most dangerous, because the first signs are seen in other parts of the body before anything wrong is noticed with the kidneys themselves.

Some of the symptoms, though, cannot be mistaken; for instance, a constant aching or misery in the back, sides or loins, or headaches and dizzy spells, nervous twitchings, disturbed sleep, inflamed or puffy eyelids, heart palpitations, rheumatic pains, weakness, bilious stomach or a feeling of languor and fatigue. Sick, unhealthy kidneys also cause thick, cloudy, offensive urine or it is full of sediment, irregular of passage and often uncontrollable or attended by a sensation of scalding.

The time to cure kidney trouble is before it settles into Diabetes, Dropsy, Gravel, or Bright's Disease. The moment you suspect the slightest kidney, bladder or urinary disorder, begin taking Pape's Diuretic as directed, with the knowledge that there is no other medicine, at any price, made anywhere in the world, which will effect so prompt a cure. In just a few days you feel and know that the kidneys, bladder and urinary organs are healthy, clean and normal and all danger passed.

Your physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, Ohio, who prepare Pape's Diuretic—50 cent treatment—sold by every druggist in the world.

Since I took Cardui, I feel better in every way, and grow stronger daily. Mexican Laborer in Sheldon
Hotel Slightly Injured
When Lift Falls.

The freight elevator in the Sheldon hotel, carrying three Mexican laborers, dropped from the top story to the first floor at 9:30 o'clock Friday morning, with disastrous results to the face of Blas Gandara, one of the laborers.

The Mexicans succeeded in starting the elevator on its downward trip, but having started it, had no knowledge how to stop it or lessen its speed. When it came to a stop at the bottom with a heavy thud, Gandara was thrown against the side of the elevator and his hip split and nose broken. All three are suffering from a severe case of fright, and Gandara was sent to a physician for treatment.
